

The world's most popular business messaging software now accessible anytime, anywhere!

Hosted Exchange Features:

- **Advanced Email Capabilities**
Efficiently access email, calendar, contacts and more regardless of the device is being used.
- **Centralized Contacts & Calendars**
Eliminate scheduling conflicts with centralized management of calendars and resource booking.
- **Public Folders**
Create folders accessible to all employees, or restrict them to user groups with custom security.
- **Security Updates**
Receive automatic updates to anti-virus and spam filters to address new threats as they appear.
- **Archiving and Search**
Take advantage of built-in archiving with the ability to search multiple user mailboxes at once.

SSE offers Microsoft Exchange, a cloud-based email solution providing a variety of access options for greater freedom, flexibility and control.

Statistics show that 65% of SMBs have employees accessing business email on a mobile device. With Hosted Exchange, it's easy to supply your employees with continuous access to email from mobile devices at any location. Hosted Exchange offers:

INCREASED PRODUCTIVITY

With features including always synced email, files, calendars and contacts, mobile access from a variety of devices, and shared task lists that allow "to do's" to be created and assigned, your employees will have everything they need accessible from anywhere.

CONTROLLED COSTS

With cloud-based email you can eliminate the cost of running an in-house MS exchange server. Plus, with predictable monthly fees for your email service, you'll be able to better manage and forecast your IT budget.

EASE OF DEPLOYMENT

With onsite email solutions, it could take several weeks or even months to properly set up and configure, but with a cloud-based solution only a few days are required for deployment since no hardware or software is required.

SCALABILITY AND CUSTOMIZATION

It's easy to add or subtract new users with Hosted Exchange rather than having to plan and budget for new servers and software. In addition, you can customize your Exchange package with a variety of add-on features.

MORE UPTIME AND QUICKER RECOVERY

Research shows that small to mid-size companies experience more than 40 hours of email downtime annually. With Hosted Exchange, you're guaranteed to have more uptime and a built-in continuity system.
