

40% of all targeted attacks today are directed at companies with less than 500 employees!

According to The Network Journal, small to mid-size businesses today face the greatest cyber security threat. In fact, 62% of all breaches impact smaller organizations. With hackers shifting their focus toward smaller firms, it's undeniably important to make sure your business is protected with the latest and greatest security defense measures. With SSE's Pretechtsm Security Suite, enjoy peace of mind with protection against even the most malicious attacks and threats!

Did you know...

- The average annual cost of a security breach for SMBs is \$188,242 - can you afford that?
- The Network Journal
- It takes 4 - 5 minutes for a new, unprotected computer to become infected.
- Symantec
- Every month, hundreds of viruses are discovered and fewer than one percent of them ever make the headlines.
- Symantec
- 90% of successful exploits involve vulnerabilities for which a patch has been available for six months or longer.
- Verizon, Data Breach Report

Key Benefits of the Pretecht Security Suite:

- A Complete Security Solution
Anti-virus, anti-spyware, trojan/worm protection, email protection, file protection, integrated monitoring, reporting, and automatic threat detection and removal all wrapped into one complete solution.
- Always Real-Time Protection
Daily updates are handled automatically on a scheduled basis, ensuring protection always remains current.
- Central Management System
Centrally managed security profiles are defined and deployed to establish best practice information. This includes integrated monitoring, alarms, automatic threat detection/removal and reporting capabilities.
- Detailed Reporting Capabilities
Detected threat information is logged by the central management system and available for detailed executive reporting.

Monitoring security status and alerts is critical to any business. With the central management system provided by our Pretecht Security Suite, this process can be done more efficiently to ensure complete protection for your business!
